The necessity of ambulance training for teachers in the normal School is not clear - If this Course is not part of the Curriculum of the training School and if a Similar Course is not provided for in the Madras training Schools & Colleges, there is no need for the Education Dept to incur any Expr on this account.

14 If Something is to be given to the Association because it is Engaged in useful and philanthropic work, it may be said that an application for such Grant Should come from the Association itself and not from the Education Dept and it is doubtful if

The D.C. does not state that such training is necessary for the said Students. Even if such training is necessary it may be possible to arrange for it by requiring a Police officer stationed at mysore who has been trained in Ambulance work in the Bangalore Police School to teach in the Training College Students. 2-10-15 (Sd) H.S. In fact, this is what the Asst Surgn will do, if the proposal is sanctioned by us.
